Independent Auditor's Report on Financial Statements

Advisory Board
University of Texas-University Charter School
Austin, Texas

Members of the Advisory Board:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of University of Texas-University Charter School as of and for the year ended August 31, 2009, which collectively comprise the University of Texas-University Charter School's basic financial statements as listed in the table of contents. These financial statements are the responsibility of University of Texas-University Charter School's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of University of Texas-University Charter School as of August 31, 2009, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 8, 2010, on our consideration of University of Texas-University Charter School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis and the budgetary comparison information identified as Required Supplementary Information in the table of contents are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was performed for the purpose of forming opinions on the financial statements which collectively comprise the University of Texas-University Charter School's basic financial statements. The accompanying schedule of expenditures of federal awards required by U. S. Office of Management and Budget Circular

A-133, *Audits of States, Local Governments and Non-Profit Organizations* and the combining financial statements and supporting schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. This information, except for that portion marked "unaudited" on which we express no opinion, has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "West, Davis & Company". The signature is written in a cursive, flowing style.

MANAGEMENT'S DISCUSSION AND ANALYSIS

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the Annual Financial and Compliance Report presents management's discussion and analysis of University of Texas-University Charter School's (UT-UCS) financial performance for the fiscal year ended August 31, 2009. This section of the report should be read in conjunction with the independent auditors' report on page 2, and UT-UCS's financial statements, which begin on page 9.

FINANCIAL HIGHLIGHTS

- UT-UCS's net assets of \$5.1 million increased by \$0.2 million as a result of this year's operations.
- During the year, UT-UCS had operating expenses totaling \$17.6 million.

OVERVIEW OF THE FINANCIAL STATEMENTS

UT-UCS is considered a governmental organization for accounting, financial reporting, and auditing purposes. Organizations other than public corporations and bodies corporate and politic are classified as governmental organizations if they have one or more of the following characteristics:

- Popular election of officers or appointment (or approval) of a controlling majority of the members of the organization's governing body by officials of one or more state or local governments;
- The potential for unilateral dissolution by a government with the net assets reverting to a government; or
- The power to enact and enforce a tax levy.

UT-UCS has the potential for unilateral dissolution by The University of Texas at Austin. Therefore, UT-UCS exhibits one of the characteristics and is considered to be a governmental organization for accounting, financial reporting, and auditing purposes.

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Assets and the Statement of Activities on pages 9 through 10. These provide information about the activities of UT-UCS as a whole and present a longer-term view of UT-UCS's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements, starting on page 11, report UT-UCS's operations in more detail than the government-wide statements by providing information about UT-UCS's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources, and supply the basis for the budget.

The notes to the financial statements starting on page 15 provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

The section labeled Other Supplementary Information Section contains data used by monitoring or regulatory agencies for assurance that UT-UCS is using funds supplied in compliance with the terms of grants.

This report consists of three parts – *management's discussion and analysis* (this section), *independent auditor's opinion*, and *basic financial statements*.

The basic financial statements include:

- Statement of Net Assets includes all of UT-UCS's assets and liabilities. The difference between UT-UCS's assets and liabilities is its net assets. Net assets are presented in two components – unrestricted and restricted.
- Statement of Activities reports all of UT-UCS's revenues and expenses. The statement measures the results of UT-UCS's operations.
- Fund financial statements report UT-UCS's operations in more detail.
- The Notes to the Financial Statements present information essential for fair presentation of the financial statements that is not displayed on the face of the financial statements. The notes are an integral part of the basic financial statements.

FINANCIAL ANALYSIS OF UT-UCS

Reporting UT-UCS as a Whole

The Statement of Net Assets and the Statement of Activities

The analysis of UT-UCS's overall financial condition and operations begins on page 9. Its primary purpose is to show whether UT-UCS is better off or worse off as a result of the year's activities. The Statement of Net Assets includes all UT-UCS's assets and liabilities at the end of the year while the Statement of Activities includes all the revenues and expenses generated by UT-UCS's operations during the year. These apply the accrual basis of accounting which is the basis used by private sector companies.

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. UT-UCS's revenues are divided into those provided by outside parties who share the costs of some programs, such as grants provided by the U.S. Department of Education to assist children with disabilities and/or from disadvantaged backgrounds (program revenues), and revenues provided by TEA in equalization funding processes (general revenues). All UT-UCS's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years (such as workers' compensation claims).

These two statements report UT-UCS's net assets and changes in them. UT-UCS's net assets (the difference between assets and liabilities) provide one measure of UT-UCS's financial health, or financial position. Over time, increases or decreases in UT-UCS's net assets are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of UT-UCS, however, you should consider non-financial factors as well, such as changes in UT-UCS's average daily attendance.

In the Statement of Net Assets and the Statement of Activities, we divide UT-UCS into two kinds of activities:

- Governmental activities—Most of UT-UCS's basic services are reported here, including the instruction, counseling, co-curricular activities, food services, transportation, maintenance, community services, and general administration. Tuition, fees, and state and federal grants finance most of these activities.
- Business-type activities—UT-UCS charges a fee to “customers” to help it cover all or most of the cost of services it provides in the child care programs. UT-UCS has no such business-type activities.

Reporting UT-UCS's Most Significant Funds

Fund Financial Statements

The fund financial statements begin on page 11 and provide detailed information about the most significant funds—not UT-UCS as a whole. Laws and contracts require UT-UCS to establish some funds. UT-UCS's administration establishes many other funds to help it control and manage money for particular purposes. UT-UCS has only one kind of fund—governmental.

- Governmental funds—UT-UCS's basic services are reported in governmental funds. These use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances that are available for future spending. The governmental fund statements provide a detailed short-term view of UT-UCS's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds in reconciliation schedules following each of the fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Our analysis focuses on the net assets (Table I) and changes in net assets (Table II) of UT-UCS's governmental activities.

Net assets of UT-UCS's governmental activities increased from \$4.9 million to \$5.1 million. Unrestricted net assets – the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements – were \$4.8 million at August 31, 2009. This increase in governmental net assets was the result of \$0.9 million increase in operating expenses while revenue increased by \$0.2 million.

Total government-wide revenues increased from \$17.6 million to \$17.8 million or 1.2%. Total government-wide expenses increased from \$16.7 million to \$17.6 million or 5.4%. The increase in expenses was a result of increases in instructional costs of \$0.4 million, general administration costs of \$0.4 million, and guidance/counseling of \$0.1 million.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS

Legislative Changes

The 81st Legislative Session, which convened in January 2009, approved House Bill 3646 (HB3646) for school finance effective for the school years 2009-2010 and 2010-2011.

The major impacts of HB3646 to school districts include: 1) a mandatory wage increase of at least \$800 per year for employees, including teachers, librarians, nurses, speech pathologists, and counselors; 2) the use of State Fiscal Stabilization Funds (SFSF) in the Foundation School Program (FSP) revenues; and 3) a return to formula-based funding from the previous target revenues that were based on 2006-07 revenues. This change in funding will result in increased state revenues. The SFSF revenue is a result of the Legislature using federal American Recovery and Reinvestment Act (ARRA) funds to cover shortfalls in the FSP. Even though the SFSF is part of the FSP, UT-UCS is required to submit a separate application for the SFSF and maintain compliance with federal requirements when expending these funds.

Looking Beyond 2008-2009

As a result of Residential Facility Monitoring, TEA mandated that UT-UCS begin a restructuring process that adjusts the roles of teachers in the classroom. In order for UT-UCS to comply with this, seven special education teacher positions will be created. UT-UCS will use ARRA funds to cover any shortfalls that will result because of this change.

In 2009-2010, UT-UCS will continue to invest in a technology plan to ensure that the most relevant and current hardware and software is being used throughout the district. All classrooms will be outfitted with technology to enhance the instructional program and curriculum. All technology, including computers, will be put on a replacement schedule that is reasonable and cost efficient. The reduction in assets for fiscal year 2009-2010 is not anticipated to exceed \$1.2 million.

The migration of teachers to UT-UCS employment will also impact the 2009-2010 budget. Evaluation of the transition and its financial impact will remain a critical factor in future planning. UT-UCS will continue to monitor expenses related to the transition and will make adjustments accordingly in future budgets.

The Oaks Treatment Center was closed in September 2009 by Psychiatric Solutions Inc. The UT-UCS staff at this campus was reassigned to other areas in the district. The loss of funding from those students is expected to be offset by a significant increase in enrollment at Methodist Children's Home. District staff will continue to monitor staffing and enrollment trends in order to make appropriate adjustments in future budgets.

CONTACTING UT-UCS'S FINANCIAL MANAGEMENT

This financial report is designed to provide a general overview of UT-UCS's finances and to show UT-UCS's accountability for the money it receives. If you have questions about this report or need additional financial information, contact UT-UCS's business office at University of Texas-University Charter School, The University of Texas at Austin, Division of Continuing and Innovative Education, P.O. Box 7667, Austin, Texas 78713.

UNIVERSITY OF TEXAS-UNIVERSITY CHARTER SCHOOL

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED AUGUST 31, 2009

A. Summary of Significant Accounting Policies

The basic financial statements of University of Texas-University Charter School (the "School") have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") applicable to governmental units in conjunction with the Texas Education Agency's Financial Accountability System Resource Guide ("Resource Guide"). The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

1. Reporting Entity

University of Texas-University Charter School is chartered by the State Board of Education and accredited by the Texas Education Agency. The school operates within Continuing and Innovative Education at the University of Texas at Austin (UT). UT is accredited with the Southern Association of Colleges and Schools. Courses are developed to the Texas Essential Knowledge and Skills (TEKS) objectives and are TEKS compliant. The School's administrators and staff are degreed and certified for the positions to which they are assigned.

As approved in the charter application, the Chief Administrative Officer of the School is the Superintendent of the University of Texas-University Charter School. The Superintendent reports to the Associate Dean, who reports to the Dean of Continuing and Innovative Education. The Dean reports to the President/Provost of The University, who is ultimately responsible to the UT System Board of Regents, appointed by the Governor and confirmed by the State Senate. This reporting structure effectively outlines the governing body of the School, with the Dean, President/Provost, and the Board of Regents retaining final oversight. On a monthly basis, an advisory council works to ensure effective management of the School. Community members, students, parents, treatment facility staff, and additional UT members are asked to attend meetings as appropriate. The School provides K-12 educational services to students in residential treatment and special program facilities. By providing individualized education at students' location and at a time tailored to specific need, individuals can continue their education while in residence. Many students returning to public school find success because of the support and flexibility of the School's instructional model.

2. Basis of Presentation, Basis of Accounting

a. Basis of Presentation

Government-wide Financial Statements: The statement of net assets and the statement of activities include the financial activities of the overall government. Governmental activities generally are financed through intergovernmental revenues, and other nonexchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the School's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The School does not allocate indirect expenses in the statement of activities. Program revenues include grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the School's funds, with separate statements presented for each fund category. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The School reports the following major governmental funds:

General Fund: This is the School's primary operating fund. It accounts for all financial resources of the School except those required to be accounted for in another fund.

UNIVERSITY OF TEXAS-UNIVERSITY CHARTER SCHOOL

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED AUGUST 31, 2009

b. Measurement Focus, Basis of Accounting

Government-wide Financial Statements: These financial statements are reported using the economic resources measurement focus. They are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the School gives (or receives) value without directly receiving (or giving) equal value in exchange, include grants, entitlements, and donations. On an accrual basis, revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The School considers all revenues reported in the governmental funds to be available. Revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Expenditures are recorded when the related fund liability is incurred, General capital asset acquisitions are reported as expenditures in governmental funds.

When the School incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the School's policy to use restricted resources first, then unrestricted resources.

3. Financial Statement Amounts

a. Capital Assets

Purchased capital assets are reported at cost or estimated historical cost. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. A capitalization threshold of \$5,000 is used.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Vehicles	2-15
Computer Equipment	3-15

b. Receivable and Payable Balances

The School believes that sufficient detail of receivable and payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation. Therefore, no disclosure is provided which disaggregates those balances.

There are no significant receivables which are not scheduled for collection within one year of year end.

c. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the use of management's estimates.

d. Data Control Codes

Data Control Codes appear in the rows and above the columns of certain financial statements. The TEA requires the display of these codes in the financial statements filed with TEA in order to insure accuracy in building a statewide database for policy development and funding plans.

UNIVERSITY OF TEXAS-UNIVERSITY CHARTER SCHOOL

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED AUGUST 31, 2009

B. Deposits and Investments

The School's funds are required to be deposited and invested under the terms of a depository contract. The depository bank deposits for safekeeping and trust with the School's agent bank approved pledged securities in an amount sufficient to protect School funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance. The School's funds are maintained by UT.

On a monthly basis, UT provides the School with a statement of account showing all fund activities for the month and ending monthly balances which is then reconciled to the accounts of the School. Such deposits are insured or collateralized with securities held by The University of Texas at Austin in UT's name. The School does not maintain investments of any kind since funds available are retained by UT, therefore, no interest accrues to the School.

C. Capital Assets

Capital asset activity for the year ended August 31, 2009, was as follows:

	Beginning Balances	Increases	Decreases	Ending Balances
Governmental activities:				
<i>Capital assets being depreciated:</i>				
Furniture and Equipment	\$ 19,549	\$ --	\$ --	\$ 19,549
Vehicles	43,032	--	--	43,032
Total capital assets being depreciated	<u>62,581</u>	<u>--</u>	<u>--</u>	<u>62,581</u>
Less accumulated depreciation for:				
Furniture and Equipment	(18,519)	(1,030)	--	(19,549)
Vehicles	(39,460)	(3,572)	--	(43,032)
Total accumulated depreciation	<u>(57,979)</u>	<u>(4,602)</u>	<u>--</u>	<u>(62,581)</u>
Total capital assets being depreciated, net	4,602	(4,602)	--	--
Governmental activities capital assets, net	<u>\$ 4,602</u>	<u>\$ (4,602)</u>	<u>\$ --</u>	<u>\$ --</u>

Depreciation was charged to functions as follows:

Instruction	\$ 4,602
	<u>\$ 4,602</u>

D. Commitments Under Noncapitalized Leases

Commitments under operating (noncapitalized) lease agreements for office facilities provide for minimum future rental payments as of August 31, 2009, as follows:

<u>Year Ending August 31,</u>	
2010	\$ 156,425
2011	164,056
2012	171,686
Total Minimum Rentals	<u>\$ 492,167</u>

UNIVERSITY OF TEXAS-UNIVERSITY CHARTER SCHOOL

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED AUGUST 31, 2009

E. Pension Plan

1. Plan Description

All employees of the School employed for one-half or more of the standard work load and who are not exempt from membership under the Texas Constitution and Texas Government Code, Title 8, Subtitle C, Section 822.002, participate in the Teacher Retirement System of Texas (TRS). It is a cost-sharing defined benefit pension plan with all risks and costs provided by the School. All School employees, except those employed for less than one-half the standard work load and who are not exempt by law, are required to participate in TRS as a condition of employment. Benefits are established by state statute and vary based on age at retirement along with number of years of state service.

By statute, covered employees must contribute 6.4 percent of their salary to the plan and the School contributes an amount equal to 6.58 percent times the aggregate annual compensation during the fiscal year .

F. Health Care Coverage

UT provides health care benefits to all School employees who meet UT employment qualifications and requirements. Contributions are required for coverage of dependents. During the year, UT deducted amounts from the School's cash accounts to cover their portion of health care coverage.

G. Commitments and Contingencies

1. Contingencies

The School participates in grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the School has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectibility of any related receivable may be impaired. In the opinion of the School, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying basic financial statements for such contingencies.

2. Litigation

No reportable litigation was pending against the School at August 31, 2009.

H. Related Party Transactions

The School operates within Continuing and Innovative Education as detailed in Note A1; therefore, the School has several transactions within UT. In addition to payroll and supplies processed or purchased through UT, significant financial transactions include the following:

Management Fee to Continuing and Innovative Education	\$	1,057,141
Administrative Services Charge to UT		464,236
Total	\$	<u>1,521,377</u>

Required Supplementary Information

Required supplementary information includes financial information and disclosures required by the Governmental Accounting Standards Board but not considered a part of the basic financial statements.

Independent Auditors' Report

Report on Internal Control over Financial Reporting and on Compliance and
Other Matters Based on an Audit of Financial Statements Performed in
Accordance with Government Auditing Standards

Advisory Board
University of Texas-University Charter School
Austin, Texas

Members of the Advisory Board:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of University of Texas-University Charter School as of and for the year ended August 31, 2009, which collectively comprise the University of Texas-University Charter School's basic financial statements and have issued our report thereon dated January 8, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered University of Texas-University Charter School's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the University of Texas-University Charter School's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the University of Texas-University Charter School's internal control over financial reporting. A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the University of Texas-University Charter School's ability to initiate, authorize, record, process or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the University of Texas-University Charter School's financial statements that is more than inconsequential will not be prevented by the University of Texas-University Charter School's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the University of Texas-University Charter School's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we considered to be material weaknesses, as defined above.

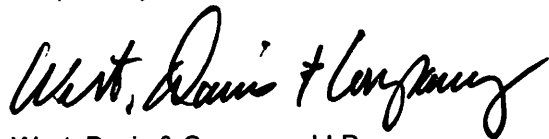

Compliance and Other Matters

As part of obtaining reasonable assurance about whether University of Texas-University Charter School's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion

on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, others within the entity, the Advisory Board, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Respectfully submitted,

A handwritten signature in black ink that reads "West, Davis & Company". The signature is written in a cursive, flowing style.

Independent Auditors' Report

Report on Compliance with Requirements Applicable
To each Major Program and on Internal Control over Compliance
In Accordance With OMB Circular A-133

Advisory Board
University of Texas-University Charter School
Austin, Texas

Members of the Advisory Board:

Compliance

We have audited the compliance of University of Texas-University Charter School with the types of compliance requirements described in the *U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended August 31, 2009. University of Texas-University Charter School's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of University of Texas-University Charter School's management. Our responsibility is to express an opinion on University of Texas-University Charter School's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about University of Texas-University Charter School's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of University of Texas-University Charter School's compliance with those requirements.

In our opinion, University of Texas-University Charter School complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended August 31, 2009.

Internal Control Over Compliance

The management of University of Texas-University Charter School is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered University of Texas-University Charter School's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of University of Texas-University Charter School's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we considered to be material weaknesses.

This report is intended solely for the information and use of management, others within the entity, the Advisory Board, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Respectfully submitted,

A handwritten signature in black ink that reads "West, Davis & Company". The signature is written in a cursive, flowing style.
