Independent Auditors' Report

To the Advisory Board
University of Texas-University Charter School
Austin, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the University of Texas-University Charter School ("the School") as of and for the year ended August 31, 2018, and the related notes to the financial statements, which collectively comprise the School's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the School's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of University of Texas-University Charter School as of August 31, 2018, and the respective changes in financial position, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

While the results of our audit are not modified with respect to this matter, the financial statements of the School are intended to present the financial position and the changes in financial position of The University of Texas (UT), University of Texas System (the System), and the State of Texas (the State) that are attributable to the transactions of the School, as discussed in Note A1. Transactions associated with facilities, bonds, pensions and other postemployment benefits related to the School's activities in the name of UT and/or the System, are reported by UT and/or the System, and not the School. The financial statements do not purport to, and do not, present fairly the financial position of UT, the System, or the State as of August 31, 2018, or the changes in their financial position for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, and budgetary comparison information and schedule of the School's proportionate share of the net pension liability and schedule of School pension contributions, identified as Required Supplementary Information in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the University of Texas-University Charter School's basic financial statements. The introductory section and combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not required parts of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements. The accompanying other supplementary information is presented for purposes of additional analysis and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and other supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 18, 2019 on our consideration of University of Texas-University Charter School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering University of Texas-University Charter School's internal control over financial reporting and compliance.

A handwritten signature in black ink that reads "West, Davis & Company". The signature is written in a cursive, flowing style.

MANAGEMENT'S DISCUSSION AND ANALYSIS

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the Annual Financial and Compliance Report presents management's discussion and analysis of University of Texas-University Charter School's (the School) financial performance for the fiscal year ended August 31, 2018. This section of the report should be read in conjunction with the independent auditors' report on page 2, and the School's financial statements, which begin on page 11.

FINANCIAL HIGHLIGHTS

- At year end the School had net position of \$2.3 million.
- During the year, the School had operating expenses totaling \$10.3 million.

OVERVIEW OF THE FINANCIAL STATEMENTS

The School is considered a governmental organization for accounting, financial reporting, and auditing purposes. Organizations other than public corporations and bodies corporate and politic are classified as governmental organizations if they have one or more of the following characteristics:

- Popular election of officers or appointment (or approval) of a controlling majority of the members of the organization's governing body by officials of one or more state or local governments;
- The potential for unilateral dissolution by a government with the net position reverting to a government; or
- The power to enact and enforce a tax levy.

The School has the potential for unilateral dissolution by The University of Texas at Austin or the Texas Education Agency. Therefore, the School exhibits one of the characteristics and is considered to be a governmental organization for accounting, financial reporting, and auditing purposes.

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Position and the Statement of Activities on pages 11 through 12. These provide information about the activities of the School as a whole and present a longer-term view of the School's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements, starting on page 13, report the School's operations in more detail than the government-wide statements by providing information about the School's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources, and supply the basis for the budget.

The notes to the financial statements starting on page 17 provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

The section labeled Other Supplementary Information Section contains data used by monitoring or regulatory agencies for assurance that the School is using funds supplied in compliance with the terms of grants.

This report consists of three parts – *management’s discussion and analysis* (this section), *independent auditor’s opinion*, and *basic financial statements*.

The basic financial statements include:

- Statement of Net Position includes all of the School’s assets and liabilities. The difference between the School’s assets and liabilities is its net assets. Net position is presented in two components – unrestricted and restricted.
- Statement of Activities reports all of the School’s revenues and expenses. The statement measures the results of the School’s operations.
- Fund financial statements report the School’s operations in more detail.
- The Notes to the Financial Statements present information essential for fair presentation of the financial statements that is not displayed on the face of the financial statements. The notes are an integral part of the basic financial statements.

FINANCIAL ANALYSIS OF THE SCHOOL

Reporting the School as a Whole

The Statement of Net Position and the Statement of Activities

The analysis of the School's overall financial condition and operations begins on page 11. Its primary purpose is to show whether the School is better off or worse off as a result of the year's activities. The Statement of Net Position includes all the School's assets and liabilities at the end of the year while the Statement of Activities includes all the revenues and expenses generated by the School's operations during the year. These apply the accrual basis of accounting which is the basis used by private sector companies.

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. The School's revenues are divided into those provided by outside parties who share the costs of some programs, such as grants provided by the U.S. Department of Education to assist children with disabilities and/or from disadvantaged backgrounds (program revenues), and revenues provided by TEA in equalization funding processes (general revenues). All the School's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years (such as workers’ compensation claims).

These two statements report the School's net position and changes in it. The School's net position (the difference between assets and liabilities) provide one measure of the School's financial health, or financial position. Over time, increases or decreases in the School's net position is one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of the School, however, you should consider non-financial factors as well, such as changes in the School's average daily attendance.

In the Statement of Net Position and the Statement of Activities, we divide the School into two kinds of activities:

- Governmental activities—Most of the School's basic services are reported here, including the instruction, counseling, co-curricular activities, food services, transportation, maintenance, community services, and general administration. State and federal grants finance most of these activities.
- Business-type activities—the School charges a fee to “customers” to help it cover all or most of the cost of services it provides in the child care programs. The School has no such business-type activities.

Reporting the School's Most Significant Funds

Fund Financial Statements

The fund financial statements begin on page 13 and provide detailed information about the most significant funds—not the School as a whole. Laws and contracts require the School to establish some funds. The School's administration establishes many other funds to help it control and manage money for particular purposes. The School has only one kind of fund—governmental.

- Governmental funds—the School's basic services are reported in governmental funds. These use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances that are available for future spending. The governmental fund statements provide a detailed short-term view of the School's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation schedules following each of the fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Our analysis focuses on the net position (Table I) and changes in net position (Table II) of the School's governmental activities.

Net position of the School's governmental activities at year end totaled \$2.3 million. Unrestricted net position – the part of the net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements – was \$2.3 million at August 31, 2018. The elimination of the Net Pension Liability of the Teacher Retirement System and the School's proportionate share of Other Post- Employment Benefits resulted in a prior period adjustment increasing net position by \$7.2 million.

Total government-wide revenues increased from \$10.1 million to \$11.2 million or 11%. Total government-wide expenses decreased from \$10.5 million to \$10.3 million or 2%.

NET PENSION AND OPEB LIABILITIES

The School has elected not to report these liabilities.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS

Looking Beyond 2017-2018

In 2017-2018, UT-UCS expanded Seton Home to serve St. PJs Children's Home. St. PJ's is an emergency shelter for domestic and international children and youth (grades PK-12th) who are victims of abuse, neglect and human sex trafficking. The international children and youth are under the care of the U.S. Department of Health & Human Services' (HHS) Office of Refugee Resettlement (ORR).

The Texas Education Agency released a letter on August 31, 2018 regarding the provision of educational services by Texas public schools to children held or maintained by the federal government in residential facilities and under the care of the U.S. Department of Health & Human Services' (HHS) Office of Refugee Resettlement (ORR). If Texas public schools provide educational services to children held in custody by the federal government, under Texas law payment for those services must come from sources such as tuition, not from state funds.

Texas public schools can provide educational services to these children but would do so with payment from sources such as tuition without duplicative payment from the Foundation School Program. Accordingly, Texas public schools that provide educational services to these children while they are held or maintained in Texas residential facilities by the federal government, must not submit attendance for these students as eligible for funding through the Foundation School Program.

The only UT-UCS campus that served ORR children is our partner facility, Seton Home St. Peter & St. Joseph's (PJ) Campus in San Antonio. The facility will not provide UT-UCS with the tuition funding required by law that would be essential to continue serving their approximately 116 ORR students, and without any source of funding, UT-UCS ceased serving these students and reduced staffing by ten positions (nine teachers and one instructional aide).

In 2018-2019, UT-UCS opened two new campuses.

- SJRC (Bulverde, TX): a residential treatment center for children in the foster care system who are in need of 24 hour care. The district is also pursuing other residential facility partners for youth in the central Texas area.
- The Refuge (Bastrop, TX) A residential center offering trauma-informed, long-term restoration shelter and services to girls (ages 11-17) who have been exploited through sex trafficking.

In 2019-2020, UT-UCS plans to open Safe Haven Youth Ranch in Hempstead, TX. Safe Haven is a residential treatment facility offering services to boys and girls ages (12-17), who have suffered from traumatic life-experiences of abuse and neglect and are in need of mental and behavioral health services. The campus will serve 32 youth during the initial phase-one of construction in 2019, then an additional 32 youth after phase-two is completed.

UT-UCS and its growing campuses within the greater Austin community and the Houston area is in fact an extension of the University of Texas at Austin's mission, which is to serve the people of Texas. So, building new relationships with the community continues to be at the forefront of the district's work this school year

and beyond. All of our new facilities support mental wellness for children in kindergarten - 12th grade. Our mission is to serve, and so growth will continue to play an important factor in the financial picture of our organization. Our growth over the past few years requires us to plan for the expense of serving children with innovative technologies and curriculum. Planning for this investment continues to lead the work of our Strategic Planning Committee and the Advisory Board.

CONTACTING THE SCHOOL'S FINANCIAL MANAGEMENT

This financial report is designed to provide a general overview of the School's finances and to show the School's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the School's business office at University of Texas-University Charter School, The University of Texas at Austin, Division of Diversity and Community Engagement, 2200 East 6th Street, Austin, Texas 78702.

UNIVERSITY OF TEXAS-UNIVERSITY CHARTER SCHOOL
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2018

A. Summary of Significant Accounting Policies

The basic financial statements of University of Texas-University Charter School (the "School") have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") applicable to governmental units in conjunction with the Texas Education Agency's Financial Accountability System Resource Guide ("Resource Guide"). The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

1. Reporting Entity

The University of Texas-University Charter School is a department of The University of Texas (UT), which is an agency of the State of Texas (the "State"). UT is one of the universities that make up the University of Texas System (UT System), and UT System is one of six university systems and five independent universities that in total are presented a major enterprise fund in the State's Comprehensive Annual Financial Report.

UT, UT System, and the Charter School have elected to define the Charter School's reporting entity to include only activities in the Charter School's name. The Charter School's proportional share of liabilities in the name of UT and/or UT System are reported by UT and/or UT System. Accordingly, transactions associated with facilities and bonds, pensions, and other postemployment benefits related to the Charter School's activities in the name of UT and/or UT System are not reported by the Charter School. However, the Charter School has elected to make limited disclosures with respect to these matters in Notes G. and H. The associated financial activities related to these items and required disclosures are made within the UT System and the State's Annual Financial Reports. These financial statements present financial information that is attributable to the Charter School and do not purport to, and do not, present fairly the financial position of UT, UT System, or the State.

University of Texas-University Charter School is chartered by the State Board of Education and accredited by the Texas Education Agency. The school operates within the Division of Diversity and Community Engagement (DDCE) at the University of Texas at Austin (UT). UT is accredited with the Southern Association of Colleges and Schools. Courses are developed to the Texas Essential Knowledge and Skills (TEKS) objectives and are TEKS compliant. The School's administrators and staff are degreed and certified for the positions to which they are assigned.

As approved in the charter application, the Superintendent oversees all day to day operations of the University of Texas-University Charter School. The Superintendent reports to the Vice President of DDCE, who reports to the President of the University, who is ultimately responsible to the Chancellor and UT System Board of Regents. The UT System Board of Regents is appointed by the Governor and confirmed by the State Senate. This reporting structure effectively outlines the governing body of the School with the Vice President, President and the Board of Regents retaining final oversight. On a monthly basis, an advisory board works to ensure effective management of the School. Community members, students, parents, treatment facility staff, and additional UT members are asked to attend meetings as appropriate. The School provides K-12 educational services to students in residential treatment and special program facilities. By providing individualized education at students' location and at a time tailored to specific need, individuals can continue their education while in residence. Many students returning to public school find success because of the support and flexibility of the School's instructional model.

2. Basis of Presentation, Basis of Accounting

a. Basis of Presentation

Government-wide Financial Statements: The statement of net position and the statement of activities include the financial activities of the overall government. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

UNIVERSITY OF TEXAS-UNIVERSITY CHARTER SCHOOL
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2018

The statement of activities presents a comparison between direct expenses and program revenues for each function of the School's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The School does not allocate indirect expenses in the statement of activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the School's funds, with separate statements presented for each fund category. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The School reports the following major governmental funds:

General Fund: This is the School's primary operating fund. It accounts for all financial resources of the School except those required to be accounted for in another fund.

b. Measurement Focus, Basis of Accounting

Government-wide Financial Statements: These financial statements are reported using the economic resources measurement focus. They are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the School gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The School does not consider revenues collected after its year-end to be available in the current period. Revenues from local sources consist primarily of donations. Donor revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

When the School incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the School's policy to use restricted resources first, then unrestricted resources.

3. Financial Statement Amounts

a. Inventories and Prepaid Items

Inventories of supplies on the balance sheet are stated at weighted average cost, while inventories of food commodities are recorded at market values supplied by the Texas Department of Human Services. Inventory items are recorded as expenditures when they are consumed. Supplies are used for almost all functions of activity, while food commodities are used only in the food service program. Although commodities are received

UNIVERSITY OF TEXAS-UNIVERSITY CHARTER SCHOOL
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2018

at no cost, their fair market value is supplied by the Texas Department of Human Services and recorded as inventory and deferred revenue when received. When requisitioned, inventory and deferred revenue are relieved, expenditures are charged, and revenue is recognized for an equal amount. Inventories also include plant maintenance and operation supplies as well as instructional supplies.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

b. Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated fair value at the date of the donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. A capitalization threshold of \$5,000 is used.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Vehicles	2-15
Computer Equipment	3-15

c. Deferred Outflows and Inflows of Resources

In addition to assets, the statements of financial position (the government-wide Statement of Net Position and governmental funds balance sheet) will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position and/or fund balance that applies to one or more future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statements of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to one or more future periods and so will not be recognized as an inflow of resources (revenue) until that time.

d. Receivable and Payable Balances

The School believes that sufficient detail of receivable and payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation. Therefore, no disclosure is provided which disaggregates those balances.

There are no significant receivables which are not scheduled for collection within one year of year end.

e. Interfund Activity

Interfund activity results from loans, services provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers In and Transfers Out are netted and presented as a single "Transfers" line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single "Internal Balances" line of the government-wide statement of net position.

UNIVERSITY OF TEXAS-UNIVERSITY CHARTER SCHOOL
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2018

f. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the use of management's estimates.

g. Data Control Codes

Data Control Codes appear in the rows and above the columns of certain financial statements. The TEA requires the display of these codes in the financial statements filed with TEA in order to ensure accuracy in building a statewide database for policy development and funding plans.

h. Fund Balances - Governmental Funds

Fund balances of the governmental funds are classified as follows:

Nonspendable Fund Balance - represents amounts that cannot be spent because they are either not in spendable form (such as inventory or prepaid insurance) or legally required to remain intact (such as notes receivable or principal of a permanent fund).

Restricted Fund Balance - represents amounts that are constrained by external parties, constitutional provisions or enabling legislation.

Committed Fund Balance - represents amounts that can only be used for a specific purpose because of a formal action by the School's Advisory Board. Committed amounts cannot be used for any other purpose unless the Advisory Board removes those constraints by taking the same type of formal action. Committed fund balance amounts may be used for other purposes with appropriate due process by the Advisory Board. Commitments are typically done through adoption and amendment of the budget. Committed fund balance amounts differ from restricted balances in that the constraints on their use do not come from outside parties, constitutional provisions, or enabling legislation.

Assigned Fund Balance - represents amounts which the School intends to use for a specific purpose, but that do not meet the criteria to be classified as restricted or committed. Intent may be stipulated by the Advisory Board or by an official or body to which the Advisory Board delegates the authority. Specific amounts that are not restricted or committed in a special revenue, capital projects, debt service or permanent fund are assigned for purposes in accordance with the nature of their fund type or the fund's primary purpose. Assignments within the general fund convey that the intended use of those amounts is for a specific purpose that is narrower than the general purposes of the School itself.

Unassigned Fund Balance - represents amounts which are unconstrained in that they may be spent for any purpose. Only the general fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification because of overspending for specific purposes for which amounts had been restricted, committed or assigned.

i. Net Position Flow Assumption

Sometimes the School will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the School's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

UNIVERSITY OF TEXAS-UNIVERSITY CHARTER SCHOOL
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2018

j. Fund Balance Flow Assumptions

Sometimes the School will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the School's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

B. Compliance and Accountability

1. Finance-Related Legal and Contractual Provisions

In accordance with GASB Statement No. 38, "Certain Financial Statement Note Disclosures," violations of finance-related legal and contractual provisions, if any, are reported below, along with actions taken to address such violations:

<u>Violation</u>	<u>Action Taken</u>
None reported	Not applicable

2. Deficit Fund Balance or Fund Net Position of Individual Funds

Following are funds having deficit fund balances or fund net position at year end, if any, along with remarks which address such deficits:

<u>Fund Name</u>	<u>Deficit Amount</u>	<u>Remarks</u>
None reported	Not applicable	Not applicable

C. Deposits and Investments

The School's funds are required to be deposited and invested under the terms of a depository contract. The depository bank deposits for safekeeping and trust with the School's agent bank approved pledged securities in an amount sufficient to protect School funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance. The School's funds are maintained by UT.

On a monthly basis, UT provides the School with a statement of account showing all fund activities for the month and ending monthly balances which is then reconciled to the accounts of the School. Such deposits are insured to protect School funds on a day-to-day basis during the period of the contract. The pledge of approved securities is collateralized with securities held by The University of Texas at Austin in UT's name. The School does not maintain investments of any kind since funds available are retained by UT, therefore, no interest accrues to the School.

UNIVERSITY OF TEXAS-UNIVERSITY CHARTER SCHOOL
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2018

D. Capital Assets

Capital asset activity for the year ended August 31, 2018, was as follows:

	Beginning Balances	Increases	Decreases	Ending Balances
<i>Governmental activities:</i>				
<i>Capital assets being depreciated:</i>				
Equipment	19,549	--	--	19,549
Vehicles	21,597	--	--	21,597
Total capital assets being depreciated	41,146	--	--	41,146
Less accumulated depreciation for:				
Equipment	(19,549)	--	--	(19,549)
Vehicles	(21,597)	--	--	(21,597)
Total accumulated depreciation	(41,146)	--	--	(41,146)
Total capital assets being depreciated, net	--	--	--	--
Governmental activities capital assets, net	\$ --	\$ --	\$ --	\$ --

E. Interfund Balances and Activities

1. Due To and From Other Funds

Balances due to and due from other funds at August 31, 2018, consisted of the following:

Due To Fund	Due From Fund	Amount	Purpose
None	None	\$ --	Not Applicable

2. Transfers To and From Other Funds

Transfers to and from other funds at August 31, 2018, consisted of the following:

Transfers From	Transfers To	Amount	Reason
None	None	\$ --	Not Applicable

F. Risk Management

The School is exposed to various risks of loss related to torts, theft, damage or destruction of assets, errors and omissions, injuries to employees, and natural disasters. During fiscal year 2018, the School purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past fiscal year and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

G. Pension Plan

1. Plan Description

The School participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67, and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

UNIVERSITY OF TEXAS-UNIVERSITY CHARTER SCHOOL
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2018

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Detail information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <https://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

H. Defined Other Post-Employment Benefit Plans

In addition to providing pension benefits, the State provides certain health and life insurance benefits for retired employees in accordance with state statutes. These postretirement benefits are administered at the UT System level. Substantially, all UT Austin employees may become eligible for the health and life insurance benefits as a retired employee if they reach normal retirement age while working for the State. Similar benefits for active employees are provided through the same self-funded plan. Depending upon the status of the employee at the time of retirement, the State or UT Austin recognizes the cost of providing these benefits. The cost of retiree postemployment benefits is recognized when paid. This contribution paid all of the "employee/retiree only" premiums and a portion of the premiums for those employees/retirees selecting dependent coverage. The employee/retiree was required to pay a portion of the cost of dependent coverage.

UT System follows an accrual-based measurement, recognition, and disclosure of OPEB expense, such as retiree medical, over the employees' years of service, along with the related liability, net of any plan assets. The UT System's Employee Group Insurance (EGI) program is a single employer plan in which a uniform benefit package is provided to all employees and retirees of the UT System (collectively, "subscribers") through a single risk pool. Uniform employer and subscriber contribution rates are developed by an actuary for each fiscal year based on a single actuarial valuation and are uniformly applicable to all subscribers from all institutions. Once the contributions are made, they are combined in a single risk pool from which all benefits and expenses are paid. Separate accounts are not maintained for UT Austin and contributions, benefits, and expenses are not tracked by individual component. As of August 31, 2018 and 2017, UT System's net OPEB obligation was \$3.17 billion and \$3.19 billion, respectively. The amount reported by the State is related to the premium sharing contributions, which are recognized as State appropriation general revenue on the UT System's financial statements in the fiscal year that the State contributed the amounts for OPEB on the UT System's behalf.

The UT System and member contribution rates are determined annually by the UT System based on the recommendations of the UT System's Office of Employee Benefits staff and consulting actuary. The contribution rates are determined based on the benefit and administrative costs expected to be incurred, the funds appropriated, and the funding policy established by the Texas Legislature in connection with benefits provided through the EGIP. The UT System revises benefits when necessary to match expected benefit and administrative costs with available revenue. EGIP is operated on a pay-as-you-go basis and no assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

The UT System EGIP is disclosed within the primary consolidated financial statements of the UT System.

Additional information may be obtained from the UT System annual financial report:
<https://www.utsystem.edu/sites/default/files/documents/report-state/2018/consolidated-annual-financial-report-fy-2018/ut-system-audit-afr-2018.pdf>.

I. Employee Health Care Coverage

UT provides health care benefits to all School employees who meet UT employment qualifications and requirements. Contributions are required for coverage of dependents. During the year, UT deducted amounts from the School's cash accounts to cover their portion of health care coverage.

UNIVERSITY OF TEXAS-UNIVERSITY CHARTER SCHOOL
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2018

J. Commitments and Contingencies

1. Contingencies

The School participates in grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the School has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectibility of any related receivable may be impaired. In the opinion of the School, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying basic financial statements for such contingencies.

2. Litigation

No reportable litigation was pending against the School at August 31, 2018.

K. Related Party Transactions

The School operates within the Division of Diversity and Community Engagement as detailed in Note A1; therefore, the School has several transactions within UT. In addition to payroll and supplies processed or purchased through UT, significant financial transactions include the following:

Administrative Services Charge to UT	\$ <u>350,294.00</u>
--------------------------------------	----------------------

L. Prior Period Adjustment

UT, UT System, and the Charter School have elected to no longer report the Charter School's proportionate share of the net pension and OPEB liabilities and related deferred outflows and inflows resulting in the beginning balance of net position being restated by:

	Governmental Activities
Beginning net position - as reported	\$ (5,720,394)
Restatement -net pension liability	4,107,652
Restatement -net OPEB liability	3,240,000
Restatement - deferred outflows	(957,266)
Restatement - deferred inflows	802,069
Beginning net position - restated	\$ <u>1,472,061</u>

Required Supplementary Information

Required supplementary information includes financial information and disclosures required by the Governmental Accounting Standards Board but not considered a part of the basic financial statements.

UNIVERSITY OF TEXAS-UNIVERSITY CHARTER SCHOOL

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED AUGUST 31, 2018

Budget

The official budget was prepared for adoption for all Governmental Fund Types. The budget was prepared in accordance with accounting practices generally accepted in the United States of America. The following procedures are followed in establishing the budgetary data.:

- a. Prior to August 21 of the preceding fiscal year, the School prepares a budget for the next succeeding fiscal year. The operating budget includes proposed expenditures and the means of financing them.
- b. A meeting of the Board is then called for the purpose of adopting the proposed budget after ten days' public notice of the meeting has been given.
- c. Prior to the beginning of the fiscal year, the budget is legally enacted through passage of a resolution by the Board.

Once a budget is approved, it can be amended at function and fund level only by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings.

Each amendment must have Board approval. Such amendments are made before the fact, are reflected in the official minutes of the Board and are not made after fiscal year end as required by law.

Each amendment is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year end.

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at August 31, and encumbrances outstanding at that time are to be either cancelled or appropriately provided for in the subsequent year's budget. There were no end-of-year outstanding encumbrances that were provided for in the subsequent year's budget.

Defined Benefit Pension Plan

Changes of benefit terms

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Changes of assumptions

There were no changes of assumptions or other inputs that affected measurement of the total pension liability during the measurement period.

*Combining Statements and Budget Comparisons

Independent Auditors' Report on Internal Control over Financial Reporting and
On Compliance and Other Matters Based on an Audit of Financial Statements
Performed In Accordance With Government Auditing Standards

Advisory Board
University of Texas-University Charter School
Austin, Texas

Members of the Advisory Board:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of University of Texas-University Charter School, as of and for the year ended August 31, 2018, and the related notes to the financial statements, which collectively comprise University of Texas-University Charter School's basic financial statements, and have issued our report thereon dated January 18, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the University of Texas-University Charter School's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University of Texas-University Charter School's internal control. Accordingly, we do not express an opinion on the effectiveness of the University of Texas-University Charter School's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

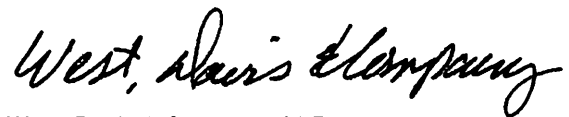

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University of Texas-University Charter School's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in black ink that reads "West, Davis & Company". The signature is written in a cursive, flowing style.

Independent Auditors' Report on Compliance for Each Major Program and on Internal
Control Over Compliance Required by the Uniform Guidance

Advisory Board
University of Texas-University Charter School
Austin, Texas

Members of the Advisory Board:

Report on Compliance for Each Major Federal Program

We have audited the University of Texas-University Charter School's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on University of Texas-University Charter School's major federal program for the year ended August 31, 2018. University of Texas-University Charter School's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of University of Texas-University Charter School's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University of Texas-University Charter School's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the University of Texas-University Charter School's compliance.

Opinion on Each Major Federal Program

In our opinion, the University of Texas-University Charter School complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended August 31, 2018.

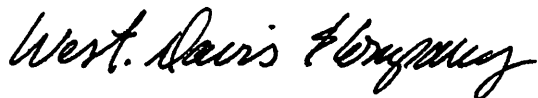

Report on Internal Control Over Compliance

Management of the University of Texas-University Charter School is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the University of Texas-University Charter School's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University of Texas-University Charter School's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we considered to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

UNIVERSITY OF TEXAS-UNIVERSITY CHARTER SCHOOL
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED AUGUST 31, 2018

Basis of Presentation

A. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award grant activity of the District under programs of the federal government for the year. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the District.

B. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

C. Subrecipients

The District has no subrecipients.

D. Matching Requirements

Certain Federal programs require the District to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The District has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

UNIVERSITY OF TEXAS-UNIVERSITY CHARTER SCHOOL
SCHEDULE OF REQUIRED RESPONSES TO SELECTED SCHOOL FIRST INDICATORS
AS OF AUGUST 31, 2018

Data Control Codes		Responses
SF2	Were there any disclosures in the Annual Financial Report and/or other sources of information concerning nonpayment of any terms of any debt agreement at fiscal year end?	No
SF4	Was there an unmodified opinion in the Annual Financial Report?	Yes
SF5	Did the Annual Financial Report disclose any instances of material weaknesses in internal controls over financial reporting and compliance for local, state or federal funds?	No
SF6	Was there any disclosure in the Annual Financial Report of material noncompliance for grants, contracts and laws related to local, state or federal funds?	No
SF7	Did the school district make timely payments to the Teachers Retirement System (TRS), Texas Workforce Commission (TWC), Internal Revenue Service (IRS), and other governmental agencies?	Yes
SF8	Did the school district <u>not</u> receive an adjusted repayment schedule for more than one fiscal year for an over allocation of Foundation School Program (FSP) funds as a result of a financial hardship?	Yes
SF10	What was the total accumulated accretion on capital appreciation bonds (CABs) included in government-wide financial statements at fiscal year-end?	\$ --
SF11	Net Pension Assets (object 1920) at fiscal year-end.	\$ --
SF12	Net Pension Liabilities (object 2540) at fiscal year-end.	\$ --
SF13	Pension Expense (object 6147) at fiscal year-end.	\$

In correspondence to all school administrators dated November 1, 2017, the TEA's Director of Financial Compliance stated "For 2017, and until further notice, no data should be entered in the field for data feed Schedule L-1 question SF13. If the AFR and data feed has been submitted no additional steps need to be taken."
