A screenshot of the Edmentum login page. The background is a purple pattern of various educational icons. A white login form is centered, containing fields for Account Login (with "UOTCS" entered), User Name, and Password. A green "Log in to your Edmentum Account" button is below the password field. There is a link for "Forgot your password?". Below the login form are three buttons: "Self-Enrollment", "Contact", and "Help". At the bottom of the form are links for "Privacy Policy" and "California Privacy Rights". Below the form is an "Announcements" section with a message about scheduled maintenance on Saturdays and Sundays.

Keep Learning Going at Home

Get to know Edmentum Exact Path!

This year, we are using an online learning program from Edmentum called **Exact Path**. This exciting digital tool personalizes learning across **grades K–12 in reading, language arts, and math**. It starts by targeting each student's academic strengths and weaknesses with a computer-adaptive assessment, and then it prescribes a tailored playlist of lessons, practice, and short quizzes at their learning level. Students can earn rewards and monitor their own progress each step of the way. Your student will be using this program at school, but he or she can also continue learning at home.

Where can my student find his or her work?

Your student will primarily work within his or her unique **learning path**, which is based on assessment results for each available subject. Within a learning path, no more than four skills will ever display at once. Each skill could consist of a lesson, practice, and a quiz.

Outside of the learning path, a student might also receive additional **assignments** from a teacher. Each assignment will have a specified due date.

How will the learning path change as my student keeps working?

After completing each set of skills displayed in the learning path, a short Progress Check will be unlocked. This will assess a student's understanding of the skills he or she just learned and determine if additional review is needed or if the student is ready to move ahead. If the student does not master a skill, he or she will receive a prerequisite skill known as a Building Block to help shore up foundational concepts. Additionally, your student's teacher will be notified and will be able to intervene via offline instruction or choose to create a digital assignment the student can complete within Exact Path.

Where can my student see his or her progress?

The Rewards area tracks all progress and skill mastery the student has made in Exact Path.

- **Mastery Trophies:** Students must earn 80 percent or above on each skill within the Progress Check in order to earn a Trophy for that skill.
- **Challenge Badges:** Teachers can create personalized challenges for a single student or an entire class to motivate learning. These can include setting goals around how many skills students should master or how much time they should spend learning in the program.

Welcome to Exact Path!

Dear Parent or Guardian,

Your student is embarking on a learning adventure with Exact Path! Exact Path supplements classroom lessons by delivering learning activities that are targeted to your child's specific skills. Each student has a unique, personalized experience with Exact Path. To learn more about how your student will use Exact Path, please review this overview.

To start your learning adventure, you first need to log in to Exact Path. Your teacher might use Easy Log In or standard log in. If you don't know which log in to use, ask your teacher.

Easy Log In

Step 1: If your teacher uses Easy Log In, go to the web address your teacher gives you.

Standard Log In

Step 1: If your teacher uses standard log in, go to <https://login.edmentum.com>.

Step 2: Click on your name from the class list.
