Consequently, for 2021 state academic accountability, all Texas districts and campuses received a label of *Not Rated: Declared State of Disaster*.

The Charter School Performance Framework report is an overall district-level report that is designed to provide parents, the public, charter operators, and the authorizer with information about each charter school's performance. The CSPF includes three standards that measure the academic, financial, and operational performance of a charter school. The [2021 Charter School Performance Framework Manual](#) describes the 2021 indicators, ratings, performance expectations, data sources, and other helpful information.
